Teleutotje's Books !

Posted: 12:00 PM - Oct 06, 2003 - Posted: 12:42 PM - Mar 25, 2004

This is my list of the books about ants only , about social insects in general or containing info about ants that are in my possession at this moment . Basis for this list was FORMIS2002 but all the books marked with arent in this bibliographic file . Most missing books are in Dutch , French or German , pointing to a weakness in FORMIS2002 that will be corrected , I hope , in the near future !

But first a little bit of history ! In the 1880s the books from A. E. Brehm were translated in French . The volumes about Insects , Myriopoda and Arachnida were translated by J. Knckel d Herculaïs , working in the Museum d Histoire Naturelle in Paris . Instead of translating the volumes , he re-wrote them completely and made of them an in depth review of all that was known on that moment about insects and their allies . The references are :

01) Les Merveilles de la Nature . L Homme et les Animaux . A. E. Brehm . Les Insectes . Les Myriopodes, les Arachnides et les Crustacs . Edition Francaise par J. Knckel d Herculaïs . Tome 1 . 1882 ( VIII + 720 pp. ) .

02) Les Merveilles de la Nature . L Homme et les Animaux . A. E. Brehm . Les Insectes . Les Myriopodes, les Arachnides . Edition Francaise par J. Knckel d Herculaïs . Tome 2 . 1882 ( IV + 802 pp. ) .

Tome 2 starts with Les Formicides on pages 1 to 150 ( Big pages , small print ! ) . For that moment a very good review about ants indeed ( Written before most of the publications of Forel , Janet , Emery , Santschi , ) ! A shame that almost no one knows about it ! But that are the ways of history !

Here follows a list of some of the copied books and big articles about ants only , about social insects in general or containing info about ants that are in my possession at this moment . This is only a small fraction of my library . I have , except these , more than 10000 articles related to ants and ant guests . They are about ethology , ecology , systematics , descriptions , revisions , interrelationships , ... off all these animals .
